Brief Report on Activity	<p>The Advanced Programming training was organized by the Training and Placement Cell of the Institute in association with the Experts from Campus Credentials with the objectives mentioned above.</p> <p>After being able to bag the basic packages through Campus Placements, many students wish to go for higher packages (i.e. Dream Package- INR 4.50 LPA and above). In such cases, The Training and Placement Cell of the Institute of Technology takes the responsibility of training the students to appear for such companies who offer these kind of Placements. mind, the candidates are provided with rigorous training along with the experts from the Industry..</p> <p>The screening process for companies that offer such Dream Packages is tough and they expect the candidates to have a thorough knowledge of Programming. Keeping this requirement in a schedule was shared with the students and they were instructed to be present for the training sessions as planned. The trainers taught the students all the advanced</p>

	<p>concepts of Programming as mentioned in the Syllabus below. The students were encouraged to ask questions and clear their doubts during the sessions.</p> <p>It was observed that the students participated enthusiastically and gained a lot of technical knowledge from this training program.</p>

Brief Report on Activity	<p>The Fundamental of Programming training was organized by the Training and Placement Cell of the Institute with the above mentioned objectives.</p> <p>For every Placement process, the second step of screening the candidates after they clear the Aptitude Test is Technical round/ Programming Test. Most companies start their screening with Basic aptitude test and proceed on with the shortlisted candidates to check their Technical knowledge. Hence, it is of outmost importance that the candidates prepare well for the technical round and face the questions with a sound mind. Although the students regularly practice programming in their schedule, it is important to train them separately for Campus placements keeping in mind the level of coding skills that are expected by the corporates.</p> <p>The trainers started by teaching the basics of each topic (as mentioned in the syllabus) and then solved a few codes for practical understanding. The students were encouraged to interact and clear their doubts related to the topics being taught. After practice sessions, the students were given problems to solve and create codes, debug the programs etc. as a</p>

	mock test. These questions/codes were later discussed in the class so that all students can benefit. All the students participated enthusiastically in the training program and enjoyed learning with the experts.

Advanced Programming

Objective	<p>The objectives of the Advanced Programming training were as follows:</p> <ul style="list-style-type: none"> • To write optimized code. • Solve programming questions with time complexity. • Develop Logic building in Programming • To increase problem solving skills in programming. • How to approach a coding problem and also develop different approach to solve Programming • Company-wise Coding Questions • Approach to crack coding challenges. • How to begin with Competitive Programming • Practice for cracking any coding interview
Organizer	Training and Placement Cell, SVKM's Institute of Technology, Dhule.
Participating Class	Batch of 2023 (CS and IT)
Date	From 21 st March 2022 till 23 rd April 2022
Time	10.00am to 5.00pm
Venue	Online
Coordinator/s	Mr. Karan Sharma (TPO) Ms. Vijayalaxmi Bittal (CS Coordinator) Ms. Ruby Mandal (IT Coordinator)
Training Organization	Campus Credentials Mr. Vinay Raikar Owner vinay@campuscredential.co.in 8369363552
Brief Report on Activity	<p>The Institute's program and Placement Cell planned the Advanced Programming program in collaboration with Campus Credentials Experts to achieve the aforementioned goals.</p> <p>Many students want to pursue greater packages after receiving the entry-level offers through Campus Placements (such as the Dream Package, which starts at INR 4.50 LPA and upwards). In these situations, the Institute of Technology's Training and Placement Cell has responsible for preparing the students to apply to such businesses that provide these kinds of Placements. Keeping this in mind, the candidates receive rigorous training from industry professionals.</p> <p>Companies that offer these Dream Packages put candidates through a rigorous screening procedure and demand a solid understanding of programming from them. The students were informed of this necessity and given instructions to attend the training sessions on time, keeping in mind the schedule. The instructors instructed the students in all of the complex programming principles included in the syllabus below. During the sessions, the students were encouraged to clarify their</p>

Brief Report on Activity	<p>The Institute's program and Placement Cell organized the Fundamental of Programming program with the aforementioned goals in mind.</p> <p>After passing the aptitude test in every placement procedure, the candidates move on to the technical round or programming test. Most employers begin the screening process with a Basic Aptitude Test before moving on to a Technical Knowledge Check with the candidates who made the short list. Therefore, it is crucial that applicants prepare thoroughly for the technical round and approach the questions with clarity of thought. Although students practice programming on a regular basis, it is vital to train them specifically for campus placements while keeping in mind the standard of coding proficiency that the corporates want.</p> <p>The instructors began by explaining the fundamentals of each topic (as stated in the syllabus) before having the students solve a few puzzles to gain a practical knowledge. Students were encouraged to engage in</p>

	conversation and ask questions on the subjects being covered in class. The students were given issues to solve, codes to write, programs to debug, etc. after practice sessions as a mock test. Later, in class, these issues/codes were covered for the benefit of all pupils. The training session was eagerly taken part in by all of the pupils, who delighted in learning from the professionals.

Hence, it is of utmost importance for our students to excel in the first step of screening by qualifying the Aptitude test. For every Placement drive, the candidates need to appear for this test. With the aim of helping them understand the pattern of test and provide enough practice, the workshop was conducted for all departments. A strict schedule was maintained for each department.</p> <p>The course design was meticulously planned and created to inculcate these skills that the corporates need. Student betterment and employability are the main objectives of these courses.</p> <p>The trainers started by teaching the basics of each topic as planned in the syllabus and then proceeded by solving examples for practical</p>

Brief Report on Activity	<p>The Fundamental of Programming training was organized by the Training and Placement Cell of the Institute with the above mentioned objectives.</p> <p>Corporates, these days, have come up with proper recruitment process that will filter out the candidates that possess the skill-sets the company requires and reject all those who seem unprepared.</p> <p>Our aim is to train students so that they can clearly understand, how to approach a Coding Problem and also Develop different approach to solve programming queries as provided by the company.</p> <p>Most companies start their screening with Basic aptitude test and</p>

	<p>sound mind. . The subject knowledge and basic programing practice is very efficiently provided by the college, however, to make students Industry ready such programing workshops are organized by the TP Cell.</p> <p>The trainers started by teaching the basics of each topic (as mentioned in the syllabus) and then solved a few codes for understanding. After practice sessions, the students were given problems to solve and create codes, debug the programs etc. These codes were later discussed in the class.</p>
